PROJECTS

Wee.db.ase: Created a cannabis database and forum in a seven-day sprint. Whether you're new to cannabis, a medical marijuana patient, or a seasoned consumer, Wee.db.ase is a perfect place for you! Technologies used: MongoDB, Express, React, Node.js, Axios, CSS3 and Semantic UI.

Posttr: This was a group project in which we created a single page app in a four-day sprint. If signed in, users can create, edit and delete their posts, see other users posts in the main feed and chat with users online. We used Node.js, Express, JavaScript, jQuery, JSON, Bootstrap, API, HTML5, CSS3.

AAroundLA: Goal for this project was to give users a quick and easy way to find and rate AA meetings in their area. It was done in a five-day sprint. I used Ruby on Rails (framework), PostgreSQL (database), Heroku (deployment), Bootstrap, HTML5 and CSS3.

Finger Smasher: Created a two-player game using HTML5, CSS3 & JavaScript in a four day sprint. Arrows quickly flash on the screen and users have to press the corresponding arrow key as many times as it blinks.

EXPERIENCE

MSPL/MGO, Beverly Hills– Account Manager

2008 – 2016

- Reconciled monthly cash flows by making sure our records matched all the bank statements. Then sent clients copies on the 1st of every month showing how much money came in and how much they spent.
- Prepared quarterly financial reports that included balance sheets, income statements, cash flow statements and owners' equity statements.

- Recorded daily accounts payables and accounts receivables.
- Communicated with a dozen clients that were assigned to my department. Addressed inquiries and resolved any issues that arose.

Beverly Hills HS, Beverly Hills – *Freshman/Soph Girls Head Coach*

2003 – 2004

- Led team to first winning record in over 10 years.
